Flagship Call Filtering Guidance - INNO

FILTERING

Use YES/NO/MAYBE to describe how well the short proposal is adressing the following questions. Remember to provide feedback!

- NO: non-sufficiently or unsatisfactorily addressed
- MAYBE: unclearly addressed or limited information provided
- YES: sufficiently and satisfactorily addressed

STRATEGIC FIT

- ◯ Is the proposed solution/service innovative and does it solve a clearly defined unmet clinical need?

POTENTIAL IMPACT

- ◯ Is the impact generated by the proposed solution clearly described with realistic and achievable target values?

FEASIBILITY OF THE PROJECT

- ◯ NMDH: Is there evidence that this project will be able to scale the solution/service into an additional market 1 year after the end of the EIT Health funding period?
- ◯ DMD/EHDS: Is there evidence that this project will be able to put a product into the market 1 year after the end of the EIT Health funding period?
- ◯ DMD (FT): is there evidence that this project would be able to put a product into the market and receive reimbursement 1 ayer after the end of the EIT Health funding period?
